

ELECTRICAL DEVICE SET FOR WORKSTATION DS3 "ELECTRICS FOR DS3 PNEUMATICS – ELECTRICAL OPERATION (ACCORDING TO BIBB, EXERCISE 1-16)**", IN L-BOXX

Material number	R901386903
Material short text	GERAETE-SET TS-PS 501-1X-K

This device set includes all of the necessary electrical components for the BIBB exercises 1-16. The electrical functions switch, push button, relay and display are available in individual boxes. This device set is required to carry out exercises from the handbook "Pneumatics – Electrical operation (according to BIBB, exercise 1-16)**" using workstation DS3. All components are delivered in three stackable plastic cases (L-Boxx).

Item	Component	Mat.-no.	Quantity	Image
1	Relay housing variant, 4 changeover contacts	R961009602	6	
2	Relay housing variant, pickup-delayed, 1 NO contact, 1 NC contact	R961009603	1	
3	Relay housing variant, dropout-delayed, 1 NO contact, 1 NC contact	R961009604	1	
4	Switching element housing variant, 1 switch + 2 push buttons, 3 NO contacts, 3 NC contacts	R961009618	2	
5	Display unit housing variant, display 4x visual, 1x acoustic	R961009616	1	
6	Distributor housing variant, 10 ports	R961009614	2	
7	Electric cylinder switch with adapter	1827003437	6	

* Exercises and matching device sets based on the recommendations according to BIBB from 2010

Item	Component	Mat.-no.	Quantity	Image
8	Electric position switch with roller lever	1827003421	1	
9	Mechanical pressure switch, 1 ... 16 bar	1827003428	1	
10	Sensor, inductive	1827003422	1	
11	Sensor, capacitive	1827003423	1	
12	Cable set for electro-pneumatics	R901508495	1	
13	Solenoid cable with plug type C, black, with LED, with protective circuit	R901474470	6
